# Guillotines

Integrated seamlessly into PG120P and PG160P aluminium pergolas, this automated glass guillotine system represents an innovative and sophisticated solution for outdoor spaces.

With a focus on minimalist design, it features an exceptionally narrow aluminium face, delivering a sleek, contemporary look. It also offers unparalleled flexibility in vent placement, allowing for top or bottom gathering. Whether facilitating a grand entrance or creating stylish glass balustrades, the system adapts to your needs.

The harmonious integration of the automated glass guillotine and the aluminium pergola creates a versatile, year-round outdoor living space. Ideal for both residential and commercial settings like cafes and restaurants, its elegant design and automated functionality set a new standard for impressive outdoor enclosures.

- Minimal design with embedded rails and thin sashes
- Impressive spans, reaching up to 3.0 meters in length and height
- Double glazing for enhanced insulation (5+5 mm)
- Ensured safety through a specialised operational mechanism

Discover the epitome of design and functionality

**4 SASHES**  
Compatible with PG160P Santorini pergola. Flexible vent placement, either gathered at the top for a grand entrance or at the bottom creating elegant glass balustrades.

**3 SASHES**  
Compatible with PG120P Mykonos pergola. Vents are gathered at the bottom, creating stylish glass balustrades.

# Retractable Glass Roof

Transform your space into a realm of contemporary elegance with our Retractable Glass Roof System, a fusion of sleek aesthetics and functional versatility. This innovative system boasts an embedded advanced waterproofing and drainage mechanism within its structural glass design, ensuring resilience in diverse weather conditions.

Whether integrated into a pergola for a harmonious ensemble or mounted independently as an inclined glass roof atop various structures, our system offers unparalleled adaptability for various spaces. What sets us apart is the limitless potential to incorporate multiple electrical motion-enabled glass roof panels, enabling complete customisation tailored to your unique vision and spatial requirements.

Immerse yourself in an ambiance that embraces the open sky above, allowing natural light to cascade into your space. Elevate your venue with the sophistication of our Retractable Glass Roof System, where innovation converges with aesthetics, redefining the outdoor experience and upgrading your space.

Skyscape Elegance, redefining outdoor luxury

- Integrated into a pergola or mounted independently
- Expansive vent dimensions, reaching up to 2x2 meters, paired with minimal aluminium sightlines
- Advanced waterproofing & drainage system for enhanced reliability
- Reliable automated operation
- Elegant and luminous living environment
